

FOR YOUR COMFORT AND SAFETY

Dear Traveler,

Despite the fact that Egypt is one of the safest countries in the world, we would like you to take the following precautions to ensure an enjoyable stay with us, free of any mishaps or upsets.

For your safety and overall well-being:

1. Do not drink water directly from the faucets. Bottled {well-sealed water is necessary. Preferable brands-Nestle } Pepsi
2. Any person who has a sensitive stomach should even avoid brushing teeth with tap water.
3. Do not eat green salads anywhere at all.
4. Eat only fruits with peels like Oranges, Mangoes, and Bananas. Avoid fruits such as strawberries , Dates and Apples
5. Juices: Always ask your waiter if the juice is fresh or “Tang”. Tang is made with tap water.
6. Do not drink water or any other drink with ice-cubes
7. Never cross the road by yourself, as the driving system in Egypt is different to the one you are used to (especially in Cairo)
8. Before attempting to use ANY form of transportation (taxi, car, horse cart, donkey, camel etc....) ask your tour guides or escorts advice!
9. Money can easily be changed at any bank. The rates are same at all banks as they are state-run. Changing your cash money from Egyptian currency back to foreign currency is more difficult. It is therefore advisable that you keep your cash in foreign currency. Dollars, Euros and Sterling are accepted anywhere.
10. Do not make any payment using a credit card without consulting your guide.
11. Do not make any purchases without checking with your guide or escort.
12. Take toilet paper along with you everywhere as most W.C.s in Egypt do not have any.

Thanks and best regards
